Genesis Forge - All Enchantments

All 42 vanilla Minecraft 1.21.1 enchantments: what Genesis Forge changed, what it left alone, and the highest level you can get in game (through the Omni Nexus Enchant tab).

21 reworked	**2** partly changed (only a Galaxium item uses it)	**19** not touched (vanilla behaviour)

How the maximum level works

- **Normal gear:** up to **10x** the vanilla maximum (example: Sharpness 5 -> 50).
- **Galaxium gear:** up to **50x** the vanilla maximum, never above **255** (example: Sharpness 5 -> 250, Protection 4 -> 200).
- **Only in the Omni Nexus.** Enchanting tables, anvils and grindstones stay vanilla. Galaxium gear can't go in them at all.
- **Cost:** 1 soul charge per level (treasure enchantments: 5 per level). Lowering or removing a level costs 1 charge per level.
- **Conflicts:** normal gear keeps the vanilla rules. Galaxium gear can mix enchantments that normally clash (Silk Touch + Fortune, all Protections).
- **Enchantments from other mods** keep the max level their own mod sets.

Note: the max numbers in the tables are worked out from the 10x / 50x rule in the docs. For one-level enchantments (Silk Touch, Mending, Infinity...) the docs confirm Mending V+, Infinity 50+ and Flame 50+ are used, so the rule applies to them too. This was not checked in the source code. Galaxium mini-bosses are given Flame 100 by code, which is above the player limit of 50.

1. Reworked enchantments (21)

Genesis Forge changed how these work, mostly by adding new powers at high levels.

#	Enchantment	Goes on	Vanilla max	Normal gear max (10x)	Galaxium max (50x)	What Genesis Forge changed
1	**Protection**	Armor	4	40	**200**	Each level cuts final damage by 0.05% (total cap 99%). Also -0.2% hunger drain per level, all armor pieces added up.
2	**Respiration**	Helmet	3	30	**150**	25+: clear underwater vision. 100+: Sea Peace - Guardians, Elder Guardians and Drowned leave you alone, no Mining Fatigue.
3	**Depth Strider**	Boots	3	30	**150**	+0.02x swim speed per level. 25+: walking in lava feels like water. 150+: swim freely in lava.
4	**Frost Walker**	Boots	2	20	**100**	Ice radius stops growing at level 16. Each level above: faster running on ice.
5	**Soul Speed**	Boots	3	30	**150**	Heals 0.1 HP per second per level on soul sand/soil. 25+: removes the red Nether fog.
6	**Swift Sneak**	Leggings	3	30	**150**	-0.2% damage taken per level while sneaking. 100+: hostile mobs lose track of you while you crouch.
7	**Mending**	Any	1	10	**50**	Held item: +0.5x XP per level. Armor: +0.025x XP per piece. Full Mending V+ armor: XP orbs fly to you 12.5x faster. Repairs Galaxium 2.5x faster.
8	**Sharpness**	Sword, Axe	5	50	**250**	Galaxium sword/axe: +1 damage per level (vanilla +0.5). Normal gear: vanilla.
9	**Bane of Arthropods**	Sword, Axe	5	50	**250**	Works on ALL mobs. Each hit: Slowness or Weakness, 1 s per level. Stronger at 50/100/150/200+. 75+: chance of strong Poison.
10	**Fire Aspect**	Sword	2	20	**100**	25+: sets every mob in the sweep on fire. 75+: Purple Cosmic Fire (5% of max health per second, ignores armor and fire immunity).
11	**Sweeping Edge**	Sword	3	30	**150**	+0.025x sweep area per level.

#	Enchantment	Goes on	Vanilla max	Normal gear max (10x)	Galaxium max (50x)	What Genesis Forge changed
12	**Looting**	Sword	3	30	**150**	Rare drop chance x(1 + 0.05 x level). 100+: growing chance to multiply drop stacks, no upper limit.
13	**Power**	Bow	5	50	**250**	Galaxium Bow: +0.03x damage per level (Power 250 = 637.5 damage). Normal bows: vanilla.
14	**Flame**	Bow	1	10	**50**	50+: Purple Cosmic Fire instead of normal fire.
15	**Infinity**	Bow	1	10	**50**	+1 arrow damage per level. 10+: shoots with 0 arrows. 50+: tipped/spectral arrows and crossbow fireworks are not used up.
16	**Piercing**	Crossbow (+ Bow in GF)	4	40	**200**	Data override (piercing.json): can now go on normal bows too. Galaxium Bow takes Piercing + Infinity together.
17	**Quick Charge**	Crossbow	3	30	**150**	Instant loading at level 5. Each level above: +1% damage.
18	**Riptide**	Trident	3	30	**150**	Launch power stops at level 15. Each level above: +5% trident hit damage. (Galaxium trident: Riptide works anywhere.)
19	**Channeling**	Trident	1	10	**50**	Works without a thunderstorm. Each extra level: +1 lightning bolt (40% damage) that jumps to the nearest mob.
20	**Wind Burst**	Mace	3	30	**150**	Launch height stops at level 5. Each level above: +1 block you can fall before taking damage.
21	**Lure**	Fishing Rod	3	30	**150**	Catch speed stops at level 5. Each level above: +10% chance to catch an extra item.

2. Partly changed (2)

The enchantment itself is vanilla, but a Galaxium item reacts to it.

#	Enchantment	Goes on	Vanilla max	Normal gear max (10x)	Galaxium max (50x)	What Genesis Forge changed
1	**Efficiency**	Tools	5	50	**250**	Normal mining speed is vanilla. Only the Galaxium Pickaxe uses it: 100+ mines 3x3, 200+ mines 5x5 (each can be switched off).
2	**Loyalty**	Trident	3	30	**150**	Enchantment itself is vanilla. Galaxium trident with Loyalty returns into the same inventory slot it was thrown from.

3. Not touched - vanilla behaviour (19)

Not changed by Genesis Forge. The Omni Nexus can still raise them, but they follow vanilla maths (right column; not tested at high levels in game).

#	Enchantment	Goes on	Vanilla max	Normal gear max (10x)	Galaxium max (50x)	What happens at high levels (vanilla)
1	**Fire Protection**	Armor	4	40	**200**	Less fire damage + shorter burning. All protection types share the vanilla cap of 80%, so above ~level 10 it adds nothing.
2	**Blast Protection**	Armor	4	40	**200**	Less explosion damage + less blast knockback. Shares the 80% cap; knockback part is full at ~level 7.
3	**Projectile Protection**	Armor	4	40	**200**	Less arrow/projectile damage. Shares the 80% cap; above ~level 10 adds nothing.
4	**Feather Falling**	Boots	4	40	**200**	Less fall damage. Shares the 80% cap; above ~level 7 adds nothing. (Galaxium boots already have their own fall protection.)
5	**Aqua Affinity**	Helmet	1	10	**50**	On/off: normal mining speed underwater. Higher levels do nothing.
6	**Thorns**	Armor	3	30	**150**	15% chance per level to hurt the attacker (always at level 7+). Damage stays small (1-5) at any level.
7	**Curse of Binding**	Armor	1	10	**50**	On/off curse. Levels do nothing.
8	**Curse of Vanishing**	Any	1	10	**50**	On/off curse. Levels do nothing.
9	**Smite**	Sword, Axe	5	50	**250**	+2.5 damage per level against undead. Keeps growing.
10	**Knockback**	Sword	2	20	**100**	Pushes mobs further per level. Very high levels throw mobs very far.
11	**Silk Touch**	Tools	1	10	**50**	On/off. Higher levels do nothing.
12	**Fortune**	Tools	3	30	**150**	More ore/crop drops per level. Keeps growing (no cap).
13	**Unbreaking**	Any	3	30	**150**	Chance to not use durability grows per level; very high levels = almost never breaks.
14	**Punch**	Bow	2	20	**100**	Arrow knockback per level. Very high levels throw mobs very far.
15	**Multishot**	Crossbow	1	10	**50**	Each level adds 2 more arrows per shot (level 10 = 21 arrows). Can lag at very high levels.
16	**Impaling**	Trident	5	50	**250**	+2.5 damage per level against water mobs.
17	**Density**	Mace	5	50	**250**	+0.5 smash damage per block fallen, per level.
18	**Breach**	Mace	4	40	**200**	Ignores 15% of armor per level; full armor ignored at level 7.
19	**Luck of the Sea**	Fishing Rod	3	30	**150**	Better chance of treasure per level; at high levels almost every catch is treasure.

Useful for reworking

Untouched enchantments that stop doing anything after a certain level. Extra levels on these are wasted right now:

- **On/off only, levels do nothing:** Aqua Affinity, Silk Touch, Curse of Binding, Curse of Vanishing.
- **Stop helping at around level 7-10:** Fire Protection, Blast Protection, Projectile Protection, Feather Falling (vanilla 80% cap), Breach (full at 7).
- **Chance is full at level 7, damage never grows:** Thorns.
- **Keep growing, may need a cap:** Multishot (more arrows = lag), Knockback and Punch (mobs fly very far), Unbreaking, Fortune.

Already on the GF ideas list as examples: Unbreaking, Efficiency, Fortune, Thorns.
